

#### **GROUP STRUCTURE**

Euro-CB Philippines was founded in 1989. We operate from CEBU Philippines inside the Export Processing zone located at 1 mile from the international airport and 5 miles from container port. Today Euro-CB employs nearly 1000 workers, supervisors and executives.

GLOBAL CUSTOMER SERVICE Based in France Warehouse: 3000 m2 SHENZHEN SOURCING OFFICE Sourcing of components, raw material, Quality Control CEBU FACTORY
R&D and Production

#### **COMPANY PROFILE**

Established: 1989

Official form: Philippine Corporation in MEPZA

President: Michel MARCHANT (French)

Plant Manager: Thierry ESCANDE (French)

**Production Manager:** Alain ANDREU (French)

Marketing Manager: Yves LE REUN (French)

Revenue 2024 : 27 M\$

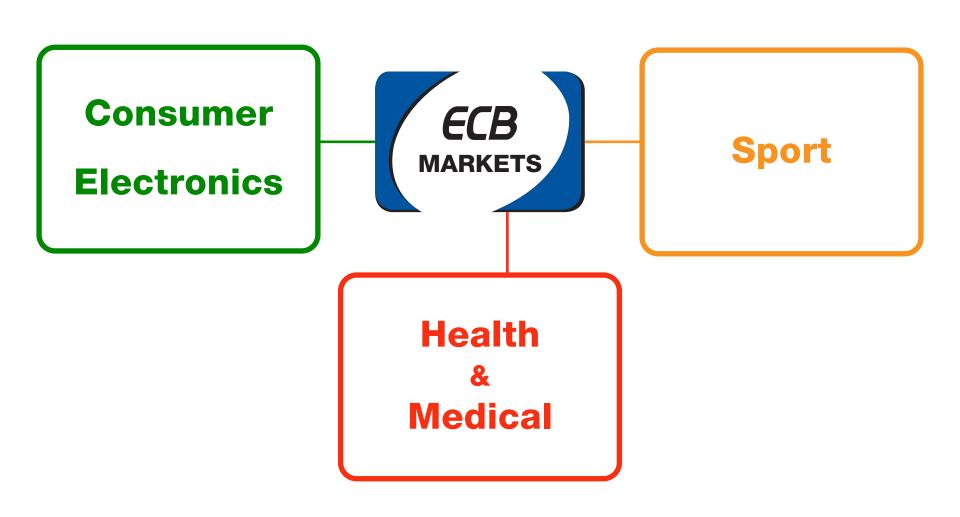

**Experience:** More than 20 years in Bluetooth® industry

Factory Surface area: 15.000 m<sup>2</sup>

Factory manpower: Average of 1000 employees

Main Activity: EMS, ODM, OEM (Bluetooth specialists)

Market: Worldwide

# Why are we different from the other manufacturers?

#### **Because of 9 reasons:**

- 1. All is made in-house, we don't use subcontractors
- 2. Our factory is managed by European engineers
- 3. We have non-stop QC from the first step to the last one
- 4. High confidentiality due to the location of the factory in Philippines
- 5. Very competitive price due to lower labor cost in Philippines
- 6. We have our own component sourcing office in shenzen
- 7. We are Bluetooth experts
- 8. We can accept small or big project as well
- 9. Our factory is ISO certified 9001:2015 and 14001

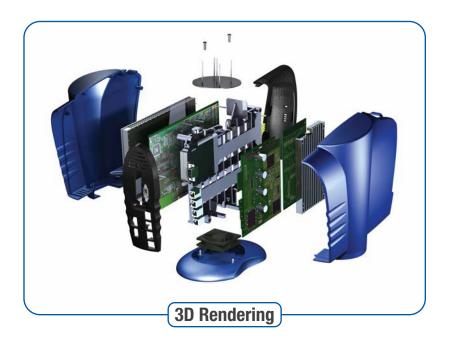

Have a look on our facilities on the following pages...

## 1. COSMETIC DESIGN

## We are very flexible:

- \* We can accept your design.
- \* We can modify your design upon request.
- \* We can design for you according to your specs.

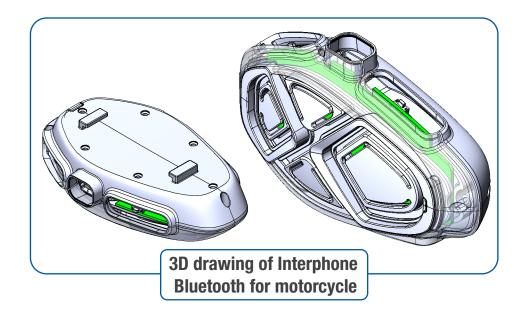

## 2. PROTOTYPE BY 3D PRINTER

We are using high-end DLP 3D printer to get accurate prototypes before to start the plastic mould.

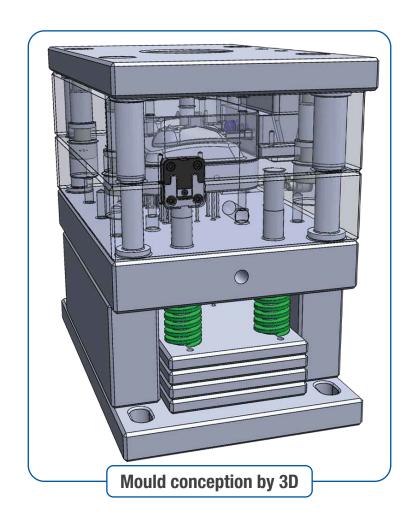

Also for validation of samples in order to save time!

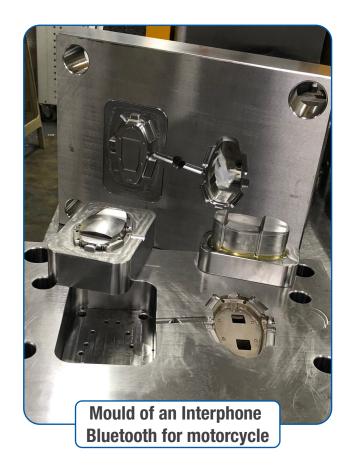

## 3. MOULD DESIGN

We can make any kind of moulds for ABS, PC, Rubber, etc... Using high grade steel from KRUPP Germany.

#### 4. MOULD MANUFACTURING

Our machine shop is equipped with high-end machine tools from Japan.

- \* 3 CNC Milling Machines Makino Brand accuracy 1 micron
- \* 5 EDM Electro-erosion Machines
- \* 1 EDM Wire Cutting Machine
- \* Etc...

#### 5. PLASTIC INJECTION

Our plastic injection department is able to process many kind of raw materials.

- \* 36 Horizontal Injection Machines
- \* 10 Vertical Machines
- \* 2 Dual Color Machines
- \* 2 Low Pressure Machines for connector /encapsulating
- \* 2 Liquid Nitrogen Deburring Machines
- \* 2 Silicon Molding Machines

# 6. CONVEYOR AUTOMATIC PAINTING (in clean room)

Our fully automated painting equipment allows us to realize any kind of painting : varnish, spray, UV coating...

- \* 3 cleaning stations (antistatic).
- \* Equipped with 3 painting rooms with 40 sprayguns.
- \* 5 Drying ovens including 2 UV coating 20 Kw.

## 7. PAD PRINTING & LASER ENGRAVING

We can print or engrave your brand, sign, text... on your product according to your wishes.

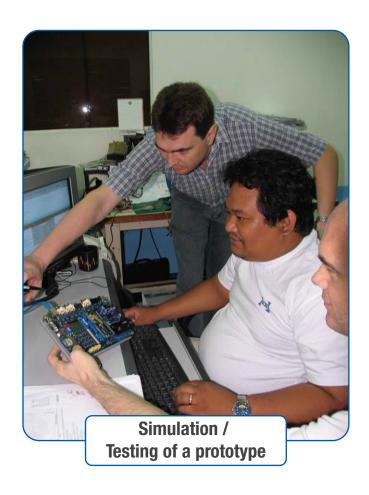

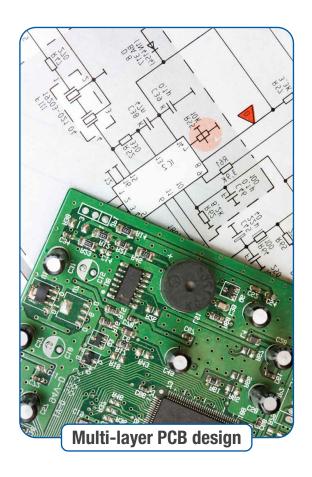

#### 8. HARDWARE DESIGN

Our highly-skilled engineering team is capable to design all kind of electronic hardware. Our R&D department is managed by a team of 4 french engineers.

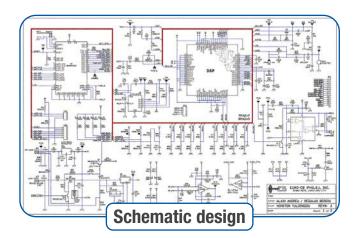

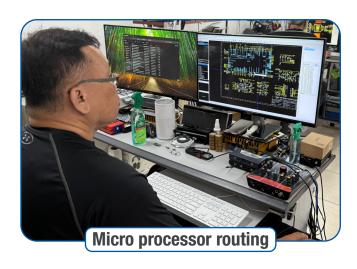

## 9. PCB DESIGN

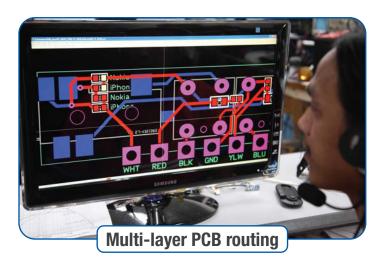

PCB design is not a concern! Our professional staff will follow your requirements.

#### **10. SOFTWARE DESIGN**

Our software engineers can understand your expectations, even the most sophisticated... and they'll make it happen!

- \* Bluetooth profiles, tuning, config, etc...
- \* Embedded firmware programming ARM, PIC, etc...

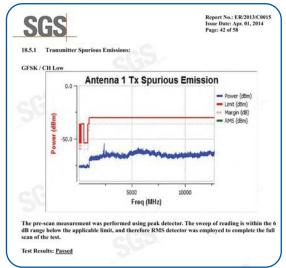

## 11. APPROVAL

Our specialists have the knowledge to handle various type of approvals : CE, FCC, IC, TELEC...

#### 12. SURFACE MOUNT

We are using Yamaha brand SMD Mounters.

This set-up allows us to reach a very high daily capacity of mounted PCB's.

\* 3 SMD lines inserting chips up to 0201 size

## 13. QC OF PCB MOUNTING

QC is our TOP priority. Our commitment is to guarantee you a zero defect product.

## 14. ASSEMBLY LINE WITH QC

Also during the assembly of your product, we're pursuing an accurate QC.

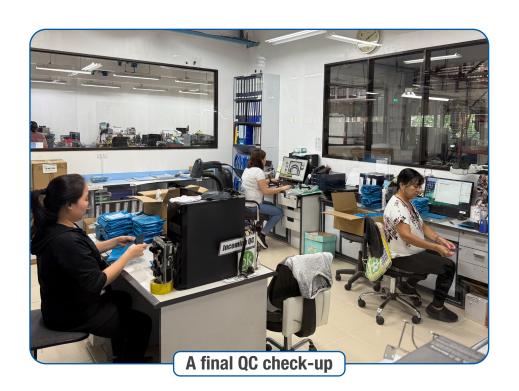

# 15. LAST QC OUT

At the end of the production chain, we offer you: the best quality and zero defect!

#### **16. PACKAGING**

We design, personalize, print and assemble all products packaging. Each empty package is filled up, locked and safely set into a masterbox.
